Dear University IP Coordinators (UIPC),

We have the pleasure to confirm participation of your university in WIPO University Initiative Program and to send you the WIPO University Initiative Documentation Kit, which we believe will contribute to promoting a broader awareness among students, researchers and the academia about the intellectual property (IP) as a powerful tool for cultural development and economic growth, and use of IP systems.

We also include the description of the WIPO University Initiative Program and the "Schedule of UIPC Recommended Activities" as a guideline in organizing your work plan. You will see that activities 1-9 are important steps to take in the initial period, and activities 10-14 as follow-up. The list is not exhaustive, hence, you may add whatever activities you might consider necessary. We would be most grateful to receive an activity report from you within six to twelve months.

For the purpose of our record, you are kindly requested to complete the Application Form, which you will find on the welcome page of our website:

http://www.wipo.int/uipc/en/

and return the form via e-mail to yumiko.hamano@wipo.int

Please do not hesitate to contact us should you have any questions or comments. Your feedback will be valuable and helpful for us to better serve your needs.

We look forward to working with you to achieve our common goals.

Sincerely yours,

Yumiko Hamano

Project Coordinator
WIPO University Initiative
